Your passion for the subject proves contagious and helps to suck the reader into the story...I like reading a story that stretches the reader's imagination and belief system.

I was instantly drawn into the magic of your story. It seems it enchants the child within each one of us. No matter what age...

You've created a most absorbing tale. You have an inimitable talent for capturing concepts of the infinite in finite and poetic words, and presenting characters we care about. The cosmic merging of Alec and Sandra (Alexandra?) is exceptional writing

Even as the world takes gigantic steps in the fields of genetics, artificial intelligence and nanotechnology, Peter Thornton, the hapless hero of *One Just Man*, drifts further and further away from mundane reality. Yet, in spite of himself, he is drawn into the machinations of Solidarity International, the Sino-Indian Block and the American Coalition, competing for world domination.

Dejected though involved, he continues to drift into an intangible world where, to his amazement, he is joined by his love, Dr. Cathy Mondellay, who is equally as committed to the mystery of the elusive black holes.

In true Stan Law style, this book is both a bold exploration of human potential and an international thriller. As an added bonus, Peter shows us the way to join him in the realm of man's ultimate destiny.

"Intrigue, international espionage, mystery and romance. You'll find it all in this sequel to *ONE JUST MAN*. I loved it! An especially interesting aspect to all Stan Law's novels is the spiritual slant he gives to each story."

*M. Witthoef, Point Claire, Canada*

"A sparkling novel that frames Dr. Peter Thornton's intensely personal journey of self-discovery in the best of high stakes international intrigue."

*Bryn Symonds, writer, Montreal.*

"Man's search for fulfilment and completeness has never had a better articulator and advocate than Stan I. S. Law in 'Elohim' We witness the chrysalis of godhood growing to dimensions not yet dreamed of. Fascinating characters drawn with an artist's eye of discernment will leave an indelible echo of recognition, and unquenchable hope, in the mind of the perceptive reader."

## Things my Mother told Me

**Stan I.S. Law**

Novel, 296 pages

~~\$22.95 Can.~~ **IP \$15.00**

ISBN 978-0-9780267-0-7

An intimate novel of an eighty-year old women spending the last years of her life at an Old People's Home. The problems she must face are as different as they are unexpected from anything one can imagine in the 'outside' world., not the least of which is her husbands gradual deterioration under the unforgiving progression of Alzheimer's disease. As we follow the inevitable loss of her own faculties, we discover what unexpected compensations nature offers to those whom no one else can help. Surprisingly, the book is spiced with abundant humour....

Stan Law must be one of today's most unusual writers: he can create intellectual excitement with nothing but introspective dialogues, mind-stretching explorations of complex concepts like life, death, love and loyalty...

The writing has classical grandeur and poetic beauty, the characters are vividly drawn, especially the nurses' helper, a giant of a man named Raphael whose sensitivities and erudition match the author's. This is a jewel of a piece of writing, with an honesty that makes transcendence and incontinence equally noble a part of the narrative. If you value the life of the mind, this book is for you.

*Kate Jones, Pasadena, MD USA, [Amazon.com]*

A departure from his international spiritual thrillers, this book locks us away in the unknown world of a retirement home where people waste away waiting... A must read for the old and the young.

*The Avatar Syndrome* follows Anne from childhood, to womanhood; from a troubled, taciturn youth, to a world-renowned violinist; from misunderstood recluse, to messiah of a higher truth and beauty.

A product of the expansive cultural landscape of our times, Law, an architect, sculptor and a consummate student of ancient myths, fuses the teachings of Lao Tzu, Jesus, St Thomas Aquinas and Indian mysticism with contemporary issues of family, youth, feminism, fame and power to deliver a singular vision of what it could mean to be human.

Thank you for so beautiful and brilliant book . . . it opens our minds and hearts, and helps . . . to find an infinite potential within us . . . You were able to awaken in me my true nature.

*K. Laycraft M.Sc., Center of Chaotic Studies, Alta.*

This is a subtle and intriguing mix of psychology, love, fame, faith and futurism. It feels like a rolling, slowly churning sea, where pieces come together and fall apart only to meet other pieces. On a deeper level it is an exploration of the human potential that spring-boards forward from science and technology to a paradoxical return to ancient mysticism.

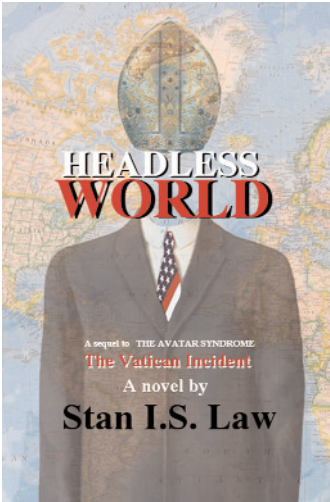

*Bryn Symonds, writer, (Barns & Noble)*

...it does provoke thought on some of the important issues of the day.

*Montreal Review of Books*

I loved the story of Anne. Many will be able to relate to her story...

*"I found him hiding behind the corner of a building, as though running away from some invisible enemy. I beckoned him to come and hide inside my tent. After a single glance in my direction, he sprinted for the open flap and dove headlong onto my bunk. I'd never seen a boy run that fast. He must have had plenty of practice."*

So begins the friendship between young Yeshua and Satya, the son of a wealthy caravan owner. Based on many readings of the late American prophet Edgar Cayce, and the latest archeological findings made available by the Nag Hammadi manuscripts, the author reconstructs the eighteen formative years not covered by the biblical accounts and thus missing from the life of Jesus.

Anyone looking for the Jesus Christ of the Bible won't find him here... This is a book of philosophy and ideas...

# ENIGMA OF THE SECOND COMING

From her sanctuary in the Canadian Science Centre high in the Yukon, Heidi is faced with two apparently separate mysteries. The world is changing, people are changing, tectonic plates are shifting, the planets are realigning. And then there is the enigma, an unknowable entity that shows this young girl a glimpse of the higher reality of the universe.

A love story, visionary fiction, mysticism, theology and a personal journey, Stan Law's *Enigma of the Second Coming* offers a world in which the reality of the moon, a remote planet or even a star system light years away is no further distant than the beautiful girl next door. Both are seemingly unattainable, yet both assume reality behind closed eyes.

*Bryn Symonds, writer*

Stan Law is an architect, sculptor and a dreamer. It is the last attribute, if you will, that metamorphoses itself into a number of books that seem to thrive in a reality very much his own. Yet, generously, he lifts the hem of the veil and invites us into his private kingdom of mystery and enchantment. At the same time his training as an architect gives his novels a structure, while his sculpture adds the beauty of form.

*Bozena Happach, publisher*

A voyage from within and without, this novel transports us to the frontiers of an existence that knows no frontiers, where physics and metaphysics merge into a timeless, seamless whole. *Enigma...*

*Jeremy Garwood, Ph.D. writer*

By offering a translation and often the symbolic meaning of more than 3,300 words, which for 2000 years scholars had left untranslated, the **Dictionary** opens the secrets of the Bible to everyone who never felt satisfied with the preaching of countless self-acclaimed experts.

Now you, and you alone, will decide what Moses really said to his people, what Christ really preached on the Sermon on the Mount, what John the Divine wanted to share with us in his Revelation. Used correctly, the **Dictionary of Biblical Symbolism** becomes the most iconoclastic document of our times.

## KEY TO IMMORTALITY

Commentary on Gospel of Thomas

**Stanislaw Kapuscinski**

180 pages, \$7.00 US

ISBN 978-0-9780267-8-3

### **A COMMENTARY ON THE SECRET TEACHING ATTRIBUTED TO JESUS ACCORDING TO THE GOSPEL OF THOMAS**

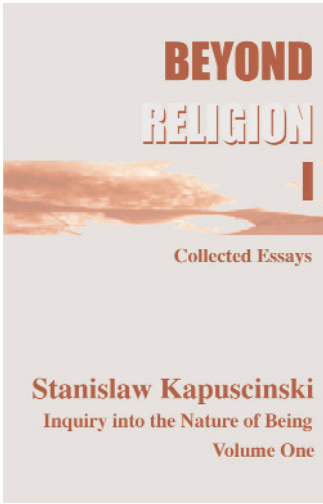

The book reprints the original translation of the 114 logia (sayings) forming part of the Nag Hammadi Library. The author offers his explanation to the secret knowledge, thereby providing the reader with the Key to Immortality promised in the first logion.

There are few among us who had never wondered about the possibility of extending our lives. We know that the human race seems endowed with the gene of immortality. Our genome can endure thousands, perhaps millions of years. But what of our consciousness? Shall we achieve awareness of our purported immortality.

The Gospel of Thomas addresses itself to this very issue. *Whosoever finds the explanations to these words shall not taste death.* Here, the author offers the explanation, the Key to Immortality.

*Immortality is ours for the taking...*

Stanislaw Kapuscinski, (aka Stan I.S. Law) an architect, sculptor and writer was educated in Poland and England. Since 1965 he has resided in Canada. His special interests cover a broad spectrum of arts, sciences and philosophy. His fiction and non-fiction attest to his particular passion for the scope and the development of human potential.

As an architect [RIBA, MRAIC, OAQ ret.], he designed a number high-rise buildings in Montreal, including the Regency Hyatt Hotel (now Delta), Place Mercantile, Headquarters for the Mutual Alliance, as well as low and middle-rise structures. In the National Capital he was the associate in charge of design of Royal Bank Headquarters on Sparks Street.

After extensive studies of ancient myths, he authored a number of philosophical treatises. Those, in turn, enabled him to develop and establish his own philosophy, which is evident in all his novels, short stories and even in his poetry. Wherever his protagonists take us, it is always on a journey of self-discovery, delving ever deeper into the mystery of the Human Potential.
